

REMOTE ANALYSIS SERVICES

HOW IT WORKS

1. Purchase, Lease, or Rent a Data Collector
2. Submit a list of Machines to PDM to be routinely monitored
3. PDM will Create the Database (may require site visit) and Send the Route files back for transfer to data collector
4. Collect the readings indicated on your machines
5. Transmit (email / drop box) the data back to PDM for analysis
6. PDM analyzes the data and generates a deficiency report
7. Repeat each Month or Quarter
